<u>Checkpoint Call -</u> Friday June 2nd: 13:30 - 14:30 (GMT+1)

Development Team Project: Project Report - unit 6
Dataset: https://www.kaggle.com/dgomonov/new-york-city-airbnb-open-data

Attendees

- Astrid van Toor
- Leigh Feaviour
- Panagiotis Koilakos

Agenda for first meeting

- Introductions
- Leigh and Astrid to walk Panagiotis through the current progress and align ideas
- Agree remaining tasks to complete the project

Notes

- Leigh and Astrid walked Panagiotis through the status, showing EDA to date and some clustering using k-prototype and DBSCAN.
- Panagiotiuse asked for clarifications about a few points of the EDA.
- Panagiotis suggested an alternative way of visualising the results on the map with a bubble map presentation which he will look into.
- Leigh and Astrid reassured Panagiotis that even though he joined the team after most of the EDA has been done, he won't be disadvantaged because it's not his fault that he joined the team late.
- Panagiotis suggested that he take the lead on writing the final report.

Actions

Panagiotis	Read through the EDA to get fully up-to speed over the weekend
Leigh	Check again with Nadeem over whatsapp about how much of the EDA should be included as an appendix, having got no answer over email
